"As long ago as 1905 Sir Walter Raleigh sketched the first plan of this
book, and in 1909 Sir Sidney Lee undertook its production. He arranged
for the writing of most of the treatises now published, set on foot the
first selection of the illustrations ... and made additions from his own col-
lections and from fresh researches. In 1911 he was obliged to postpone
work upon the book ... Successive editors who took up the task were
withdrawn by war work in the course of 1914-15." The Clarendon press
has employed Charles Talbot Onions for the completion of the work.—
